

AUTO SHOW CLOSES; THROGGLED TO END

Enthusiasts Throng Aisles Up to Closing Hour of Great Exhibition.

SALES EXCEED THOSE OF PREVIOUS YEARS

Exhibitors Spend Greater Part of Night in Getting Goods Out of Palace.

Holding the interest of the public to the last, the Automobile Show at Grand Central Palace came to an end last night, and will go down in the history of such affairs as the most successful, from a business point of view, ever held in New York.

All day yesterday, from the time the doors were opened, the enthusiasts thronged in, and in the afternoon and evening it was actually difficult to make any progress in getting around, while such a thing as a close examination of a particular exhibit was out of the question. Despite this, however, sales were numerous, many orders being registered at the various booths from persons who had looked over the car eventually selected earlier in the week and had found nothing more attractive in subsequent ramblings through the big building.

To the promoting body it was gratifying to learn yesterday that the results had been such as to fully justify the outlay by the visiting exhibitors. And that they had been was the general report. For the lowest and highest priced machines on exhibition there were orders, and several of the medium-priced companies reported a greater volume of business than they had ever before enjoyed in New York.

All told, in the face of a discouraging outlook a month ago, probably clinches the show idea for some years to come. Almost up to New Year's the majority of motor car makers were of the opinion that exhibiting in New York in the face of disturbed financial conditions meant a certain loss and a way that could not be made up. Last night there was extreme optimism.

Hardly had the crowd begun to drift out at 11 o'clock than the exhibitors began to prepare for the night. The "Q-A-R" City affair came right away, and, although not a national show, will attract many of those who displayed their wares at the Palace.

The work of removal occupied several hours, and was still going on merrily at midnight. The cars on the lower floor were easily moved to the street, but those on the upper levels moved slowly.

TO MAKE TOURING EASY

Goodrich Has Bureau for Motorist Going Abroad.

Right now, when European touring is in vogue, Americans planning tours through the European district or among the Lake will appreciate the touring service rendered by the Goodrich Company, Akron, Ohio, which maintains depots throughout Europe.

Our foreign depots will give tourists every possible means of assistance and do everything in their power to make foreign touring pleasant, says R. Beck, chief of the Goodrich touring bureau. "There are many important details, such as obtaining passports, crating cars, securing licenses, following customs requirements and treasury department rules, that are as Greek to most tourists."

HELPED IN MOTOR TEST

Bosch Magneto and Plugs Went Through Without a Miss.

Of the accessories fitted to the Moine-Knight engine which on January 2 completed a 24-hour test, none showed up more prominently than the Bosch magneto and plugs. These important attributes of the engine were subjected to a 24-hour trial, having passed through the 24-hour test, the preliminary runs, the lower power test and the five-hour economy test without being touched or adjusted in any manner. Neither the magneto nor plugs missed an explosion during the entire time.

An idea of what the ignition system performed during the 24-hour test may be gained when it is considered that over 40,000 sparks were produced by the magneto and 11,000 sparks passed across the electrodes of each of the four plugs. It took just \$7,500 separate movements of the magneto contact breaker to produce these sparks.

HUPMOBILE MEN GATHER

Attend Annual Supper by Chas. E. Riess, Local Distributor.

The annual supper tendered by Charles E. Riess to his Hupmobile dealers in the yacht room of the Hotel Astor on Friday evening was a great success, more than a hundred guests being present.

Mr. Riess presided, with Harry Fosdick, of the Fosdick-Wentworth Company, of Boston, as toastmaster. Addresses were made by R. G. Neighbors, sales manager of the Hupmobile Car Company, C. G. Foye, Mr. Steenstrup and Thomas M. Hanson. The last named piloted the Hupmobile around the world about two years ago.

Mr. Riess gave a very interesting talk relative to the necessity of consideration by dealers in order to secure the maximum sales results, and dwelt at length on the brilliant prospects for a record breaking business next spring.
